Dear Professor Wrone:

The author of the Kennedy assassination manuscript has written a critique of the readers' critiques, and asked that I pass it along to you. As a complete babe in the assassination woods, I don't know what to make of any of these criticisms and counter-criticisms. But I am passing this along to you, for whatever it is worth. If you have more thoughts on this subject, feel free to share them with me. Otherwise, you may file this material as you will.

Thanks again for your considerable help on this manuscript.

Sincerely yours,

David Nord
